DECORATIVE BALUSTERS

Eva-tech bamboo composite decorative balusters add beauty and function to your outdoor space and can be used as screening, pergolas, or other creative exterior accents. Solid balusters are suitable for a wide range of applications. Add a touch of style, shade, privacy, or liveability with Eva-tech composite decorative balusters.

BAMBOO COMPOSITE DECORATIVE BALUSTERS

Eva-tech composite balusters are small rectangular profiles perfect for creating decorative architectural designs and privacy screens. These versatile profiles can be used in many ways and come in a range of natural colours which allows architects or homeowners to let their imaginations run wild.

Eva-tech®

Eva-Last balusters are available in Eva-tech bamboo composite material technology and are made from lightweight bamboo composite, designed for long-lasting weather resistance, including protection against insects, moisture, and fading.

LOW ENVIRONMENTAL IMPACT

Holistically sustainable manufacturing & use of raw materials

CHOOSE SUSTAINABLE DECKING

RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically sustainable.

Every Eva-Last outdoor range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.
